15 litres

## **FROM**

£8,699

## ZX-4RR ZX400 FEATURES

#### **High-revving Performance**

With a redline beyond 15,000 rpm indicating its screaming potential, this engine features racing-inspired technology also found on the Ninja ZX-10R. The high revs deliver a distinctive, exhilarating engine sound characteristic of a high-performance Kawasaki In-Line Four.

# TFT Colour Instrumentation with Circuit Mode

The 4.3" all-digital TFT colour instrumentation with selectable display modes (Normal, Circuit) clearly displays the most pertinent information, whether on the street or on the track. Circuit Mode shows the gear position, lap times, and rpm above 10,000 more prominently.

## **Integrated Riding Modes**

Four integrated riding modes (Sport, Road, Rain or Rider (manual)) make it simple to select a level of traction control and power mode to suit the current riding conditions.

#### **Dual-direction KQS**

Allowing riders to take even greater advantage of the Ninja ZX-4R's exhilarating engine character, the quick shifter enables clutchless upshifts and downshifts for seamless acceleration and easy deceleration.
